### REVIEW OF MARKETS FINANCIAL AND COMMERCIAL

Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

These Are Closing Sales Each Day.

New York, Dec. 20.—The stock market to-day did not vary materially in character from that which has prevalled for many days. Except that some of the stocks which were rushed upwards, as well as some of those which yielded under the selling pressure to realize profits were different from those on previous days, the market was the same. Profit taking was palpably on an enormous scale, and was not without effect on prices, but the inroads made were not serious, and the offerings were easily absorbed, while this partial weakness in the market did not in the least impair the eager rush to buy stocks which showed any disposition to advance. The day ended with the market more generally reactionary than for some time past under a flood of seilling to take profits in Northern Pacific and other stocks which shown the most aggressive strength during the day. The rush to sell Northern Pacific was caused by the publication in a news bureau's builetin of the statement that a plan had been perfected for the voluntary retirement of the preferred stock in Jaunary by exchange for general liea 3 per cent. bonds, 120 per cent. of the bonis being given for the preferred stock. This statement was not vouched for as by official authority, but it caused a sudden drop in Northern Pacific to \$1½, the price having touched \$5½ or \$6½ points over last night. This movement in Northern Pacific to \$1½, the price having touched \$5½ or \$6½ points over last night. This movement which seemed to have relation to it, including the Wisconsin Central stocks, Pierre Marquette stocks, the Erie stocks and St. Paul. The street was full of rumors of plans for combinations looking to a new trans-continental line and to the consolidation of interests in Northwestern territory. The gains in the group mentioned extended all the way from 2 points up to \$6% in Northern Pacific. There was, besides, a vigorots upward movement in Missouri Pacific, which carried it 4½ points over last night, and caused a revival of many old rumors of plans for extensive consolidati

tion.

The market for railroad bonds continued active and strong without important exception. Total sales par value, 84,915,000.

United States 3's, old 4's and 5's advanced 4' and new 4's declined 4' per cent, on the last call.

To-day's total stock sales were 1,584,560 shares.

### The Cotton Markets.

The Cotton Markets.

NEW YORK COTTON MARKET.

New York Dec. 20.—The cotton market advanced 12 to 23 points today. Inherent strength and new bullish influences were the cause for the general improvement in value and for a semisare of the bear forces. Aside from some of the citime leaders the bull portion of the trade took advantage of the rise to secure, but little energy was an forth to interest the investion ment public and from opening to closing operations were in good part for the settlement of outstanding obligations prior to the beginning of the triple holiday adjournment. On the first call the market was firm with prices 1 to 5 points higher. These figures proved to be the lowest of the day, as after the opening persistent demand from the shorts resulted in a steady upward movement throughout the list. European interests, a number of prominent Southern houses and several floor leaders bought on the advance, chiefly January and March contracts. The cables were favorable, but the dominant influence was of a further decrease in the movement. The estimates for tomorrow's arrivals were under the ideas of even the bulls and the probable amoun sin sight this week was cut from 420,000 to 375,000. Good reports were received from Southern mills and Manchester. At the close the market was very steady with prices net 6 to 22 points higher.
